

Datamatics Business Solution's Personal Tax Preparation for

UK Chartered Accounting Firm Helps Them Achieve A Productive Tax Season

About the Client:

Our client is a leading independent Chartered Accountant based in the UK with multiple offices in London and the Home Counties. The client specializes in delivering advisory and accounting support to individuals and businesses, including small family enterprises to large international corporations.

Industry Focus:

Finance and Accounting

Geography Focus:

UK

Overview:

As a leading independent Chartered Accountant, our client was faced with vast volumes of tax preparation requests from their clients. The vast volume combined with maintaining the accuracy of tax preparation and quick turnaround time proved challenging. Our client needed a proficient tax preparation service provider with expertise in the UK personal tax processing to overcome those challenges.

Objective:

The objective of the engagement was to help the client efficiently manage higher tax return volumes. The client sought scalability, efficiency, accuracy, and quick TAT with the engagement.

Business Challenges:

The business challenges that our team of tax preparation experts faced include:

Understand Tax Laws and Regulations of UK

Large volumes of tax returns

Diverse nature of tax preparation including

- Individuals
- Partnership
- Non-resident Corporate & trusts (SA100, SA 700, SA800, and SA900)

Maintaining cost efficiency and accuracy

Scalability

Quick turnaround times (TAT)

Datamatics Solution:

The solution we offered included:

A team of UK tax experts to process and Quality Check the Tax Returns

A dedicated manager, duly trained in a UK CA firm, was deployed for efficient processing and adhering to UK Tax Laws

Exhaustive checklists were set up and Tax Reconciliations provided as part of output to ensure accuracy

Workflow, communication protocols and feedback mechanisms were set up

Returns processed on client remote desktop, thus securing the confidential Tax payer data

Weekly status and timesheets updated to ensure transparency of work status

Use of Client Database Management system, to reduce admin time involved in transmitting information
